

STILO

DESIGN by PERIN&PARTNERS

STILO traccia il profilo del nuovo ufficio, fra idee per l'innovazione, proposte per lo smart office e una profonda rivoluzione culturale. Un approccio multidisciplinare finalizzato a ottenere il meglio dall'integrazione di tecnologie ed elementi di arredo.

Perché l'ufficio è vivo, vitale, in trasformazione.

STILO charts the profile of the new office, based on ideas for innovation, proposals for a smart office and a sweeping cultural revolution. A multidisciplinary approach aimed at making the most of integrated technologies and furniture.

Because the office is alive, buzzing and progressive.

STILO esquisse le profil du nouveau bureau en proposant des idées en matière d'innovation et de « smart office », alliées à une véritable révolution culturelle. Une approche multidisciplinaire visant à tirer le meilleur de l'intégration entre technologies et éléments de mobilier.

Parce que le bureau est un espace vital, vivant, en pleine mutation.

STILO

A staged platform of solutions
that turn the workplace
into a “**NICE PLACE TO BE**”.

Une palette de solutions
qui transforment le lieu de travail
en un endroit **AGRÉABLE**.

ivm introduces **STiLO**

Un palcoscenico di soluzioni
che trasformano il luogo di lavoro
in un “**NICE PLACE TO BE**”.

THE PROJECT HEART

La STRUTTURA viene
assemblata comodamente
e in rapidità dall'alto
_ in piedi _ con 4 viti.
Il PIANO viene montato con
la tecnologia **QUICK FIX**
senza l'utilizzo di
ferramenta e attrezzi.

The FRAMEWORK is quick
and easy to assemble
from a standing position
- with just four screws
The TOP is attached using
QUICK FIX technology
without the need for
hardware and tools.

La STRUCTURE est
assemblée facilement
et rapidement par le haut,
debout, à l'aide de 4 vis.
Le PLATEAU est monté grâce
à la technologie **QUICK FIX**
sans l'emploi de
quincaillerie ni d'outils.

THE PROJECT HEART

Il PIANO di lavoro
è predisposto
per lo scorrimento
SLIDING TOP
facilitando così
l'accesso alle
prese senza
l'installazione di
botole passacavi.

The **SLIDING TOP**
makes it easy to
access power and data
without installing
desk grommets.

Le plan de travail
est disponible
dans la version
coulissante (**SLIDING**),
ce qui facilite
l'accès à la
connectique sans
l'installation de
passe-câbles ronds.

STILO mantiene tutte le
peculiarità del sistema QUICKFIX
anche con i piani SLIDING.

STILO retains all the features
of the QUICKFIX system
even with the SLIDING tops.

STILO préserve toutes
les particularités du système
QUICKFIX, même en présence
de plateaux coulissants SLIDING.

Si può avere una scrivania
con un piano scorrevole
e uno fisso su un'unica
struttura...
anche con più
postazioni in linea.

You can have a desk
with one sliding top
and one fixed top all on the
same framework...
as well as with a number
of side-by-side workstations.

Vous pouvez disposer
d'un bureau doté d'un plateau
coulissant et d'un autre fixe
sur une seule structure...
même en présence de plusieurs
postes de travail en rangée.

Flessibilità di sistema

Il sistema SLIDING funziona
anche con postazioni in linea
con gamba condivisa.

The SLIDING system also
functions with side-by-side
workstations that share legs.

Le système SLIDING fonctionne
également avec des postes de
travail en rangée avec
piètement partagé.

THE PROJECT HEART

La regolazione in altezza della scrivania è fondamentale per la salute della persona. Il particolare sistema a scatti ONE CLICK permette di determinare l'altezza del piano in modo autonomo tra i 65 cm e gli 85 cm.

A height-adjustable desk is essential to the health of people. The special ONE CLICK system makes it possible to independently set the height of the worktop at between 65 cm and 85 cm.

Le réglage en hauteur du bureau est fondamental pour la santé. Le système particulier à crans ONE CLICK permet de régler individuellement la hauteur du plateau entre 65 cm et 85 cm.

THE PROJECT HEART

La struttura permette di ottenere superfici di grandi dimensioni, ideali per configurazioni BENCHING. Il "concetto" di PRIVACY è risolto con alloggiamento di screen sia frontali, che laterali. Gli screen laterali sono disponibili con morsetti di ancoraggio al piano oppure con basamento.

The framework can be set up to obtain large surface areas, perfect for BENCHING SYSTEMS. The concept of PRIVACY is solved by inserting front and side screens. Side screens can be fixed to the top using clamps, or they can be supplied with their own base.

La structure permet d'obtenir des surfaces de grandes dimensions, idéales pour bureaux BENCH (partagés). Le « concept » de CONFIDENTIALITÉ est préservé grâce à des écrans privatifs frontaux et latéraux. Les écrans latéraux peuvent être équipés de pinces de fixation au plateau ou d'un socle.

ACCESSORI #STILO

PORTAMONITOR

PORTA CPU

MODELLO A "CINGHIA"

MODELLO "BIG"

PORTA CPU SOSPESO adattabile alle diverse dimensioni del cpu stesso. Particolarmente efficace nella sua semplicità il sistema di "fissaggio" del CPU.

SUSPENDED CPU HOLDER
Can be adapted to the actual size of the cpu. The CPU "locking" system is as effective as it is simple.

SUPPORT UC SUSPENDU
Adaptable aux différentes dimensions de l'unité centrale. La simplicité du système de fixation de l'UC est particulièrement efficace.

La struttura permette di ottenere superfici di grandi dimensioni, ideali per configurazioni workstation, hoteling e conferencing.

The framework can be set up to obtain large surface areas, perfect for workstation, hoteling and conference configurations.

La structure permet d'obtenir des surfaces de grandes dimensions, idéales pour les configurations de postes de travail, bureaux flexibles et tables de réunion
